Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 09/978,610	Applicant(s) KANOTA ET AL.	
	Examiner Y. Lee	Art Unit 2482	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/220,049, filed on 3/30/94.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
4. Claims 86, 91, 92, 97, 98, 103-106, 111, 112, 117-119, 124, 125, 130-133, 138, 139, 144-146, 148, 150, 152-154, 156, 158, 159, 161, 163-165, 167, 169, and 170 are rejected under 35 U.S.C. 103(a) as being unpatentable over Platte et al (WO 92/16944) in view of Justice et al (4,044,380) for the same reasons as set forth in Section 6 of the previous office action, dated 7/8/09.

With respect to the newly added limitations, Figures 1 and 2 of Justice et al already teaches the concept of such well known signal containing line intervals (e.g. Fig. 1); and the plural-bit mode codes being superposed in VBID data in the same line interval (e.g. Fig. 2).

Response to Arguments

5. Applicant's arguments filed 8/31/10 have been fully considered but they are not persuasive. Applicant asserts on pages 20-21 of the Remarks that Justice et al fails to teach sub-codes are superposed in the same line interval. However, although Figure 2 of Justice et al illustrates such codes may be superposed in different lines, col. 4, lines 8-11 teaches the well known alternative of superposing more than one code in each line interval. Therefore, one of ordinary skill in the art would have had no difficulty in recognizing that the plural-bit copy generation code of Platte et al may be easily superposed in the same line interval in the VBID data in order to provide greater capacity of the transmission of codes.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2482

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
